Messaging Pillars

Do’s

Speak with clarity and control

Write in short, confident sentences. Avoid clutter or filler.

Empower the reader

Frame your copy to make the user feel the potential of our tech.

Educate through insight

Make technical education digestible. Break down steps logically.

Uphold accuracy and integrity

Choose measurable, concrete phrasing over vague promises.

Reflect calm confidence

Keep a balanced-to-bold tone. Remain assertive, but never arrogant.

Don’ts

Don’t overpromise or oversell

Avoid hype words like “revolutionary, game-changing, guaranteed.”

Don’t use fear or FOMO

Don’t assume the reader knows every trading term. Wherever possible, provide substantiation and contextual guidance

Don’t drift into generic financial clichés

Avoid phrases like “Take control of your future,” “Maximize profits,” or “Trade smarter, not harder.”

Don’t break consistency across channels

Keep the same composed, credible tone on all platforms
